

NEW PARTNERSHIP TO SUPPORT CHILDREN

The Prepare U Mental Health Curriculum (www.PrepareU.Live) is pleased to partner with the NYS PTA to support children throughout New York. Prepare U is a multi-faceted experiential mental health curriculum, developed by experts and endorsed by leading psychologists, including the president of American Psychological Association’s Society for Media Psychology and Technology. Prepare U was specifically designed for students between the ages of 13-18, with an emphasis on supporting student mental health education during the critical transition that occurs in high school.

“NYS PTA is excited to work with Prepare U to support New York’s children. New York State took the important step of mandating mental health education, and we look forward to working to see that every child is supported appropriately and adequately leading to lifelong success,” offered Gracemarie Rozea, President of NYS PTA.

Prepare U is designed to be a plug-and-play system that any teacher can easily facilitate, either as a standalone course or as an integrated part of an overall health sequence. Prepare U has been featured on the front pages of publications addressing mental health and teen suicide, including features in the U.S. Department of Education Newsletter, Education Week and Teen Vogue.

Prepare U and NYS PTA are excited to work together to help our children reach their potential and become the leaders of tomorrow. Prepare U is now being implemented in schools in 5 different states including schools ranked in the top 10 nationally.

NYS PTA is the largest and oldest child advocacy organization in New York State, serving the families of our 2.6 million school children statewide since 1897. For more information on Prepare U visit www.PrepareU.Live.
