

ONLINE ACTIVE SHOOTER TRAINING THAT SAVES LIVES

STEPS FOR SURVIVAL ONLINE TRAINING PROGRAM

For Greeters and Front Office Staff

The GOLD STANDARD in Active Shooter Preparedness Training.

Greeters and front office staff are the gatekeepers of the school building and often the first line of defense against intruders. Their unique position calls for very specialized content, and our Steps for Survival for Greeters course fulfills that need.

ONE Training recognizes your unique physical position within your workplace, and the increased responsibility of vetting incoming visitors. The course reflects this unique relationship between these job duties while also addressing your desire to receive the same gold standard level of training that is offered to classroom teachers. By interacting with content created specially to address the specific concerns in the physical and mental space a greeter occupies, you will embrace new techniques and knowledge to improve your daily habits and processes.

This life-changing class will not scare you or present you with gory images, but it will allow you to see your life-saving potential in a new way and embrace that newfound power.

Our 2-hour course will leave you feeling more effective and eager to implement some new ideas, but also prepared to handle an emergency if one ever arises.

Key Elements of the Course Include:

- A brief history of active shooter attacks as they relate to greeters.
- Studies and exercises on stress inoculation.
- Methods to be an effective decision-maker.
- Options available to you during an attack and how to use them.
- Adaptations of the federally recommended Run-Hide-Fight response.
- Situational awareness methods.
- Methods to counter an attack that anyone can use.
- How to spot trouble and react.
