

ONLINE ACTIVE SHOOTER TRAINING THAT SAVES LIVES

STEPS FOR SURVIVAL ONLINE TRAINING PROGRAM

FOR STUDENTS

The GOLD STANDARD in Active Shooter Preparedness Training.

ONE Training is guided not only by subject matter experts, but by what we hear from students as well. Students have real, intelligent, and reasonable concerns. They see the headlines and they are aware of the risks they are exposed to in school buildings. Students are calling for change.

Through frank conversations and realistic programs, we can offer age-appropriate programs for students. Programs are for grades K-5, 6-8 and 9-12. Each program speaks to children in a developmentally appropriate way. These programs are offered free of charge to districts taking advantage of ONE's complete training package.

This life-changing class will not scare you or present you with gory images, but it will allow you to see your life-saving potential in a new way and embrace that newfound power.

Key Elements of the Course Include:

Our programs offer reassurance that school staff is professionally trained and prepared to handle an emergency, but they guard the specific methods and responses we teach to ensure that we never expose our content to potential attackers, which are often members of the school community. Students are guided through an understanding of what to look for before trouble begins, how and who to report concerns to, how to be aware of things happening around them, and most importantly, what to do in an emergent situation. Armed with the knowledge that they are surrounded by adults that care for them and are prepared to protect them, students can get back to their most important jobs- learning and being kids.
