OFFLINE ACTIVITIES

Host a Lemonade Stand Together

Make your favorite lemonade recipe or try this one!

Grandma's Lemonade Recipe:

- 1 cup sugar
- 1 cup water (for the simple syrup)
- 1 cup lemon juice
- 3 to 4 cups cold water (to dilute)

1. Make simple syrup by heating the sugar and water in a small saucepan until the sugar is dissolved completely.
2. While the sugar is dissolving, use a juicer to extract the juice from 4 to 6 lemons, enough for one cup of juice.
3. Add the juice and the sugar water to a pitcher. Add 3 to 4 cups of cold water, more or less to the desired strength. Refrigerate 30 to 40 minutes. If the lemonade is a little sweet for your taste, add a little more straight lemon juice to it. Serve with ice, sliced lemons.

Serves 6.

How to Host a Lemonade Stand:

First, price your lemonade to sell. Market it with some signs, possibly a pom-pom waver or bubble blower, or someone adorable to wave over customers.

Second, consider your price point. Charge 25 to 50 cents to fill a paper cup with possibly an ice cube or two. Anything higher, you may lose your target audience. Consider volume discounts. You may sell five glasses for a dollar.

Have exact change and a money box. This teaches a bit of math along with the art of doing business. Always say "Thank you!" to your customers.

Finally, post the location of your stand on a neighborhood Facebook group and your local Patch page!
